

## **SUBREGIONAL PROGRAMS**

*This programmatic level was officially established and introduced for the 2006-2007 biennium as stipulated in the PAHO Regional Program Budget Policy approved by the 45<sup>th</sup> Directing Council (September 2004). The subregional technical cooperation programs serve as support to the health action plans of the various subregional integration processes in the Americas: the Caribbean Community (CARICOM); the Central American Integration System (SICA); the Southern Common Market (MERCOSUR); and the Andean Community of Nations (CAN).*

*This section includes the resources allocated to the three subregional centers –Institute of Nutrition of Central America and Panama (INCAP); Caribbean Food and Nutrition Institute (CFNI) and Caribbean Epidemiology Center (CAREC), and to the United States/Mexico Border Health Office in El Paso.*

*The subregional cooperation plans respond to the commitments of the processes of integration of each subregional entity, and in turn complement the technical cooperation plans at the country level. These are in the final stages of development for their implementation in accordance with the 2008-2009 programming cycle. More detailed information on the nature of the subregional programming level and the criteria for the allocation of resources can be consulted in document CE136/INF/1.*

## ANDEAN

<b>SO</b>	<b>Strategic Objectives</b>	<b>Total Resources</b>
