Provisional Agenda Item 6.2

SELECTION OF ONE MEMBER STATE FROM THE REGION OF THE AMERICAS ENTITLED TO DESIGNATE A PERSON TO SERVE ON THE JOINT COORDINATING BOARD OF THE UNICEF/UNDP/WORLD BANK/WHO SPECIAL PROGRAM FOR RESEARCH AND TRAINING IN TROPICAL DISEASES (TDR) ON THE EXPIRATION OF THE PERIOD OF OFFICE OF PANAMA

The Special Programme for Research and Training in Tropical Diseases (TDR) is an independent global program of scientific collaboration. Established in 1975 and cosponsored by the United Nations Children's Fund (UNICEF), the United Nations Development Programme (UNDP), the World Bank and the World Health Organization (WHO), it aims to help coordinate, support and influence global efforts to combat a portfolio of major diseases of the poor and disadvantaged.

The Joint Coordinating Board is the most important administrative body of the Special Program. It consists of 34 members. Twelve government representatives are selected by the WHO Regional Committees from among those countries directly affected by the diseases dealt with by the Special Program, or from among those providing technical or scientific support to the Special Program (paragraph 2.2.2 of the Memorandum of Understanding). One vacancy will occur in the Region of the Americas on 31 December 2006 when the term of office of Panamá will have expired. Cuba is a member until 31 December 2007.

The Directing Council, acting in its capacity as Regional Committee of WHO for the Americas, is requested to select one Member State entitled to designate a person to serve on the TDR Joint Coordinating Board for a three-year term commencing 1 January 2007. Any Member State from the Region is eligible for selection.
1. The Special Program for Research and Training in Tropical Diseases (TDR) is a global program of international technical cooperation managed and cosponsored by the World Health Organization, United Nations Children’s Fund (UNICEF), United Nations Development Program (UNDP) and the World Bank. The diseases included in the Special Program are: African trypanosomiasis, Chagas disease, dengue, leishmaniasis, leprosy, lymphatic filariasis, malaria, onchocerciasis, schistosomiasis, and tuberculosis.

2. The JCB shall consist of 34\textsuperscript{1} members from among the Cooperating Parties as follows:

   2.2.1 Twelve government representatives selected by the contributors to the Special Programme Resources.

   2.2.2 Twelve government representatives selected by the WHO Regional Committees from among those countries directly affected by the diseases dealt with by the Special Program, or from among those providing technical or scientific support to the Special Program.

   2.2.3 Six members, designated by the JCB itself, from among the remaining Cooperating Parties.

   2.2.4 The four Agencies which comprise the Standing Committee.

   Members of the JCB shall serve for a period of three years and may be reappointed.

   Other Cooperating Parties may, at their request, be represented as observers upon approval by the JCB.

3. According to paragraph 2.2.2 of the Memorandum of Understanding, the Directing Council, acting in its capacity as Regional Committee of WHO for the Americas, is requested to select a Member State entitled to designate a person to serve on the TDR Joint Coordinating Board for a three-year term commencing 1 January 2007. Any Member State from the Region is eligible for selection under paragraph 2.2.2.

4. The meetings of the Joint Coordinating Board are held in English and French only; therefore, it is important that the person who is designated to serve by the Member State has facility in either language. Also, the person should be a researcher

---

\textsuperscript{1} Amended by the Co-sponsoring Agencies in agreement with the Joint Coordinating Board; with effect from the Twenty-ninth Session of the Board in 2006 [See the report of JCB(28), document TDR/JCB(28)/05.3].
in communicable diseases, or his/her work is to be closely related to research in communicable diseases, especially those diseases included in the Special Program.

5. Summaries of the scientific and technical basis of the Special Program and the functions, composition, and operation of the Joint Coordinating Board are attached as Annexes A and B.

6. For more information, you may wish to consult the TDR General Operations Guide 2004-2005 at the following web site:

UNICEF/UNDP/WORLD BANK/WHO SPECIAL PROGRAM FOR RESEARCH AND TRAINING IN TROPICAL DISEASES

Scientific and Technical Summary of the Memorandum of Understanding on the Administrative and Technical Structures

1. Despite the remarkable advances in medical science over recent decades, parasitic diseases still affect or threaten more than a thousand million people in the tropical countries, taking a heavy toll in human lives and gravely impeding economic development. Furthermore, rather than coming under control, in many regions some of these diseases are increasing in both prevalence and severity.

2. These diseases, burden of the tropics, are borne by the very people least equipped to control disease—the populations of the developing countries. Not only is development impeded by disease, but some of the development projects, such as man-made lakes and irrigation schemes designed to improve conditions, have in fact altered the ecology and aggravated major public health problems, such as malaria, leishmaniasis and schistosomiasis.

3. In addition, technical problems have significantly reduced the effectiveness of some disease control programs. A prime example is the increasing resistance of anopheline mosquitoes to chemical control, the mainstay of the majority of malaria control programs. In some areas, such insecticide resistance in the vector is combined with chloroquine-resistant strains of the malaria parasite in man, further increasing the severity of the problem.

4. To stimulate and coordinate goal-oriented research leading to the development and application of new and improved tools for control of these diseases, the Special Program for Research and Training in Tropical Diseases has been planned and initiated by the World Health Organization (WHO) with the assistance and co-sponsorship of the United Nations Development Program (UNDP) and the World Bank.

5. This Program's two principal objectives can be summarized as:
   - Research and development to obtain better tools to control tropical diseases;
   - Training and strengthening of institutions to increase the research capability of tropical countries.
6. Criteria for selection of the diseases—malaria, schistosomiasis, filariasis, trypanosomiasis (both African sleeping sickness and the American form called Chagas' disease), leishmaniasis, leprosy, dengue and tuberculosis—included:

- the impact of the disease as a public health problem;
- the absence of satisfactory methods for control of the disease in prevailing circumstance of the tropical countries;
- the presence of research opportunities leading to improved control methods.

7. Since several major problems requiring research apply to most or all of the eight diseases, the Special Program includes components on epidemiology and field research, vector control, and socioeconomic and biomedical research.

8. Each component of the Special Program is developed under the guidance and with the participation of multidisciplinary groups of scientists organized into a number of Scientific Working Groups, each with clearly defined research goals.

9. Intimately related to this search for new tools is the equally important and interdependent objective: the development of manpower and the strengthening of research institutions in the endemic countries of the tropics.

10. To these ends, institution strengthening activities focus upon the creation of a network of collaborating centers in tropical countries. These centers will become focal points for strengthening the research capabilities of the affected countries and will also be the sites for training activities.

11. The Special Program is concerned with ensuring that the full spectrum of technologists and scientists is trained to carry out the required research in accordance with the decisions and needs of the countries involved. Thus, while the Special Program is especially concerned with training leaders in research, it is not neglecting the training of supporting workers in the laboratory, the clinic, and the field.

12. The Special Program must be looked upon as a long-term effort of 20 years or more. It is hoped, however, that within the next five years some of the new tools will be ready for extensive trials within the national health services of those countries needing them.
Joint Coordinating Board (JCB)

1. THE JOINT COORDINATING BOARD (JCB)

Functions

The JCB shall, for the purpose of coordinating the interests and responsibilities of the parties cooperating in the Special Program, have the following functions:

- Review and decide upon the planning and execution of the Special Programme. For this purpose it will keep itself informed of all aspects of the development of the Special Program, and consider reports and recommendations submitted to it by the Standing Committee, the Executing Agency, and the Scientific and Technical Advisory Committee (STAC).

- Approve the proposed plan of action and budget for the coming financial period, prepared by the Executing Agency and reviewed by the Standing Committee.

- Review the proposals of the Standing Committee and approve arrangements for the financing of the Special Programme in that period.

- Review proposed longer-term plans of action and their financial implications.

- Review the annual financial statements submitted by the Executing Agency, as well as the audit report thereon, submitted by the External Auditor of the Executing Agency.

- Review periodic reports which evaluate the progress of the Special Program towards the achievement of its objectives.

- Endorse the proposals of the Executing Agency and the Standing Committee for STAC membership.

- Consider such other matters relating to the Special Program as may be referred to it by any Cooperating Party.
Composition

The JCB shall consist of 34 members from among the Cooperating Parties as follows:

Twelve government representatives selected by the contributors to the Special Programme Resources.

Twelve government representatives selected by the WHO Regional Committees from among those countries directly affected by the diseases dealt with by the Special Programme, or from among those providing technical or scientific support to the Special Programme.

Six members, designated by the JCB itself, from among the remaining Cooperating Parties.

The four Agencies which comprise the Standing Committee.

Members of the JCB shall serve for a period of three years and may be reappointed.

Other Cooperating Parties may, at their request, be represented as observers upon approval by the JCB.

Operation

The JCB shall meet in annual session, and in extraordinary session if required, and with the agreement of the majority of its members.

The JCB shall elect a Chairman and a Vice-Chairman from among the representatives of its members:

- the Chairman shall be elected every two years;
- the Vice-Chairman shall be elected each year;
- both officers shall serve until their successors are elected

---

1 Amended by the Cosponsoring Agencies in agreement with the Joint Coordinating Board, with effect from the Twenty-ninth Session of the Board in 2006 (See the report of JCB(28), document TDR/JCB(28)/05.3)
2 Amended by the Cosponsoring Agencies in agreement with the Joint Coordinating Board, with effect from the Twenty-sixth Session of the Board in 2003 (See the report of JCB(26), document TDR/JCB(26)/03.3)
3 Amended by the Cosponsoring Agencies in agreement with the Joint Coordinating Board, with effect from the Twenty-ninth Session of the Board in 2006 (See the report of JCB(28), document TDR/JCB(28)/05.3).
4 Amended by the Cosponsoring Agencies in agreement with the Joint Coordinating Board, with effect from the Twelfth Session of the Board in 2006 (See the report of JCB(11), document TDR/JCB(11)/88.3).
The chairman responsibilities are to:

- convene and preside over meetings of the JCB;
- undertake such additional duties as may be assigned to him by the JCB.

The Executing Agency provides the Secretariat and arranges for supporting services and facilities as may be required by the JCB.

Subject to such other special arrangements as may be decided upon by the JCB, members of the JCB make their own arrangements to cover the expenses incurred in attending sessions of the JCB. Observers attend meetings of the JCB at their own expense. Other expenses of the JCB are borne by the Special Program resources.
