FRENCH GUIANA:
GUADELOUPE, (ST. MARTIN, ST. BARTHOLOMEW),
AND MARTINIQUE

NATIONAL PRIORITIES FOR PAHO TECHNICAL COOPERATION

- Cardiovascular diseases, traffic accidents, alcoholism, perinatal mortality, sickle cell anaemia, and neoplasms (Guadeloupe).
- HIV/AIDS, addictions, hypertension, diabetes, perinatal mortality, autism, and poverty (Martinique).
- Injuries, poisoning, diseases of the circulatory system, neoplasms, and infectious and parasitic diseases, including HIV/AIDS (French Guiana).

PROJECTS

DEVELOPMENT OF HEALTH SERVICES

PURPOSE
To strengthen the expansion of selected services in OECS countries.

EXPECTED RESULTS
- Technical cooperation with FDAs increased to support health sector reform in OECS countries.
- Support provided for technical cooperation between OECS countries and FDAs in managing natural disasters.
- Support provided for the participation of TCC between FDAs and the English Caribbean in the areas of tourism and water quality.
- Management of communicable diseases strengthened in the FDAs.
- Technical cooperation initiated for selected lifestyle and family health conditions.
- Technical cooperation between PAHO and FDAs expanded.
