RESOLUTION

CE130.R9

EXTENSION OF SOCIAL PROTECTION IN HEALTH: JOINT INITIATIVE OF THE PAN AMERICAN HEALTH ORGANIZATION AND THE INTERNATIONAL LABOUR ORGANIZATION

THE 130th SESSION OF THE EXECUTIVE COMMITTEE,

Having seen Document CE130/14, Extension of Social Protection in Health: Joint Initiative of the Pan American Health Organization and the International Labour Organization,

RESOLVES:

To recommend the adoption of a resolution along the following lines:

THE 26th PAN AMERICAN SANITARY CONFERENCE,

Having seen Document CSP26/___, Extension of Social Protection in Health: Joint Initiative of the Pan American Health Organization and the International Labour Organization;

Mindful that the Pan American Health Organization and the International Labour Organization have launched a joint initiative aimed at reducing exclusion in health through the extension of social protection in health;

Having noted the respective Memorandum of Understanding signed between the two organizations;

Having noted the different activities carried out under these arrangements to extend social protection in health in the Region;

Considering that the levels of exclusion in health remain high in the Hemisphere, notwithstanding the efforts and resources invested to improve the situation, which is deteriorating with the growth of the informal economy and the rising levels of poverty, and that innovative criteria must be used in addressing this problem; and

Bearing in mind the importance of redoubling national and hemispheric efforts to guarantee equitable access to health services within the framework of the goal of Health for All, regardless of the ability to pay,

RESOLVES:

1. To urge the Member States to:
 - (a) extend social protection in health;
 - (b) promote processes of social dialogue that will permit the definition of national objectives and strategies in this field;
 - (c) include the extension of social protection in health as a guiding element in their sectoral reform processes.
2. To request the Directors of the PASB and ILO to:
 - (a) widely disseminate in the countries of the Region the conceptual and methodological documentation characterizing exclusion in health and how to combat it through the extension of social protection in health;
 - (b) work with the Member States to promote a social dialogue on this issue, analysis and discussion of how to address it in the countries, and regional cooperation mechanisms in support of these processes;
 - (c) help the countries design models for developing strategies to extend social protection in health;
 - (d) continue to promote the extension of social protection in health as a line of work in their cooperation activities in the Region.
